## Winter Maintenance and Spring Start Up

By: Dale Bille / Plant Manager - Summit, SD

Winter maintenance is wrapping up and the crew at Summit has been busy fabricating different areas of the plant. Summit has a unique group of guys that can fabricate just about anything for the plant. Give the crew what they need and they will get it done.

**Brian Pies, Lee Wright, Justin Zirbel, Michael Miller**

**David Cardwell and Herschel Pies**

Here are some of the projects we have been working on for winter maintenance:

- Built hopper for 2 inch to be fed into the log washer.
- A new gate hopper was built to control

the feed for the Syntron feeder.

- New stairs and catwalks built for our 4x12 screen deck.
- New course material was installed for our pea rock circuit.

Spring startup is just about here it's a good time to look over a few areas of the plant

Are guards straight and in place?

Are there any cuts in electrical cords or weathered outside jacket of the cords?

Are cat walks, hand railing, and toe guards in place?

Is housekeeping in order?

A general walk around of the plant prior to start up will ensure we all have a SAFE PRODUCTION SEASON.

-Dale

### East Sioux Quarry Shoutout

Rick Everist III is giving the “Gold Star” to the East Sioux Quarry crew and Mike Dahler for being the first plant in the Midwest to get running this year. By March 15 both quarry plants were full speed.
