Reynolds Pit - Portable Plant

A Team Always Willing to Help

Written by Larry Holzman

As the year comes to a close and we prepare for winter maintenance, we reflect on the achievements of our Sioux Falls portable crushing crew.

In 2024, our accomplishments included assembling a wash plant at Dell Rapids West for washing man sand. The crew also set up a crushing plant at East Sioux Quarry where we processed overburden and turned it into a sellable product, road gravel. Another accomplishment was the production of a high-PI road gravel at West Dells, which was used for dust control at both Dell Rapids locations. Additionally, a new tunnel addition was added at Dells West for surge piles.

At the start of the production season, part of the crew was sent to the Hawarden pit to assist with the overland conveyer, while another team went to Dell Rapids East to fuse pipe used for dust control on the jaw crusher. When the floods came bearing down early this summer, without hesitation, the crew worked overnight shifts loading trucks to help with the emergency.

Looking back, I am most proud of the way this team can work successfully at any location the demand takes them. Their flexibility and resilience demonstrate that their teamwork, dedication, and talents easily adapt to the diverse dynamics at each L. G. Everist location.

We offer a special thanks to Kelly Goebel who works hard behind the scenes to help us keep everything running smoothly. This team has shown time and time again that we are up for any challenge that comes our way!

Calling All Pet Owners!

We would love to showcase your pets rocking LGE, D & I, Ace, and Myrl & Roy's gear in an upcoming safety campaign! We invite you to share photos of your furry friends in hard hats, vests, or LGE apparel. Please send photos to mjbarkley@lgeverist.com and thank you for helping us highlight the importance of safety at L. G. Everist, Inc.!

Happy Birthday

Brandon Wood - November 08
East Sioux Quarry

Michael Miller - November 11
Summit

Megan Barkley - November 10
Sioux Falls

Tyler Busby - November 10
Myrl & Roy's

Ruben Duran - November 10
Fort Lupton

Michael Boyce - November 11
Ragsdale

David Cano - November 12
Firestone

Mark Anderson - November 14
D & I Railroad

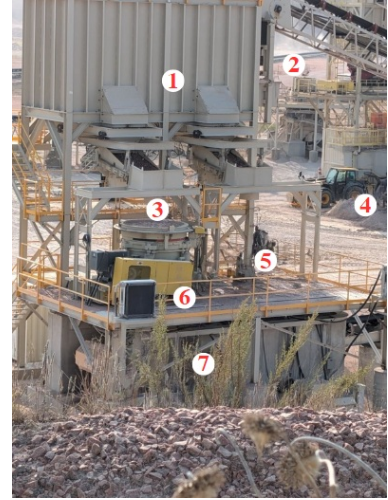

**PAWS
for safety..**

.. and make sure
your safety gear
fits correctly!

Anniversary

John Decker - 20 Years
November 10

Spot the Difference Answers - Thank you to Justin Harvey for providing this fun experience!

- 1. The two feed bins are missing the horizontal supports/paneling
- 2. Conveyer in background is missing
- 3. Missing feed hopper
- 4. Tail pulley/guard is missing
- 5. Missing right crusher
- 6. Guard is solid instead of screened
- 7. Weeds are taken out

If you know someone that would like to receive the Roxsand, have them send their personal email to info@LGEverist.com and request to be added to the mailing list.
